In addition to presenting a body of suggestive facts Dr. Butterworth has made two valuable contributions. His development of a score card that is especially adapted to the rating of the small school building should be of material assistance to rural school superintendents. Of fundamental importance is the philosophy of administration that characterizes his discussion of improvement of school facilities. The ideal of leadership in securing better school buildings permeates his whole discussion. Its significance is likely to be overlooked by the school administrator. This survey of the rural schools of New York state was made possible by the Commonwealth Fund. This Fund not only furnished the money for the conduct of the survey, but also bore the expense of printing the results of the studies. A complete list of the reports will be found at the back of this volume. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
