Water, land and sea do not even suffice you any longer; you wish to know also the universe which surrounds us. Your astronomers do as your houses, they scrape the skies. No astral body has escaped their investigations or their computations. Using incomparable instruments furnished by generous donors, they announce each day discoveries which are denied to our feeble efforts. Your surveyors grqflfiht. . . . . O a e bring us the most precious information by measuring with an activity e eg which knows no rest the immense extent of your territory. Of your naturalists no more could be said than that they are at the level Of the marvels of all kinds which your beautiful country offers them. Gentlemen, no nation more than France is happy because of your success. The energy, the perseverance, the breadth of views are made...
