

## The Complete Guide to Alternative Home Building Materials Methods: Including Sod, Compressed Earth, Plaster, Straw, Beer Cans, Bottles, Cordwood, and Many Other Low Cost Materials

---

By Jon Nunan

Atlantic Publishing Group (FL). Paperback. Book Condition: New. Paperback. 288 pages. Dimensions: 8.9in. x 5.9in. x 1.0in. In the United States alone, the annual construction of over one million new homes causes a very substantial drain on natural resources. Today, approximately 60 percent of the timber cut down in our country is used for building homes. Using alternative home building materials and creating a greener home are about creating better homes that are environmentally friendly, are less expensive in the long run, and create healthier occupants. Unfortunately, many people are unfamiliar with alternative building materials and do not know the first thing about going green. However, The Complete Guide to Alternative Home Building Materials and Methods will teach you everything you need to know about this movement toward natural construction methods. This book will show you how to identify, locate, and effectively use alternative building materials. You will learn about straw bale, cordwood, cob, adobe, rammed earth, light clay, pis, earthbag, bamboo, earth-rammed tires, cork, wool carpeting, sod, compressed earth, earth plaster, beer cans, bottles, as well as living roofs and more. In addition, you will learn the costs and performance characteristics of these materials and construction techniques for each, as...

### Reviews

*An incredibly wonderful ebook with lucid and perfect answers. It is written in easy words instead of difficult to understand. It's been printed in an exceptionally easy way in fact it is simply following I finished reading this publication in which really modified me, modify the way I think.*

-- **Mr. Keyshawn Weimann**

*The publication is great and fantastic. It can be filled with knowledge and wisdom. You won't truly feel monotony at any moment of your time (that's what catalogues are for about if you ask me).*

-- **Dr. Marcos Grimes III**
